THIS IS PROBLEM!
HE SURE IS RUDE.
EMOTO IS SAYING WEIRD THINGS AGAIN.
I DON'T KNOW WHY, BUT OUR LIBRARY IS IN A BUILDING SEPARATED FROM THE OTHER'S.
I DECIDED I WANTED TO BE A LIBRARIAN HERE WHEN I SAW THE ENTRANCE ON THE FIRST DAY OF SCHOOL.

"From now on, I've decided to read more books, like you do."
"You were so beautiful in the library reading your book, you looked like you didn't wish to be disturbed."
"But I want to get to know you in your world."
"I'm keeping this a secret."

ARE THESE RETURNS?
THEY JUST LEFT THEM HERE!?
AND THEY'RE NEXT TO THE BOOK I WAS READING THE OTHER DAY.

AND UNFORTUNATELY, HE KNOWS IT.
WHAT'S THAT ABOUT HIM?
"OH, REALLY?"
HUH?
WHAT DID YOU TELL HIM?
IT DOESN'T MATTER. I'VE ALREADY TALKED WITH EMOTO-KUN
"EH?"
I TOLD HIM HE DOESN'T HAVE TO COME.
IT'S MY RESPONSIBILITY.
"I'M MORE COMFORTABLE WHEN I'M BY MYSELF."
THE CAKE WAS REALLY GOOD!
I HAD THREE PIECES.
YOU SHOULD HAVE COME!
EH?
RIRIKO!
GOOD MORNING.
YEAH. YOU LOOK FATTER THAN YESTERDAY
NO, NOT!
THEY WERE ALL SO FUNNY!
WEREN'T THEY?
EMOTO AND HIS FRIENDS CAME TOO
THEY ATE SEVEN PIECES!
CAN'T YOU COME NEXT TIME? THERE'S ANOTHER LIBRARIAN IN OUR CLASS, ISN'T THERE? LET HIM FILL IN.
HMM...
RIRIKO, WHAT'S WRONG?
OH, NOTHING.
HE'S TOO IRRESPONSIBLE, ISN'T HE?
REALLY?!?

"The enclosed ring is not my image of the book."
"It's my image of you."
"To the person who's writing letters to me..."

# Honorifics Explained

Throughout the Del Rey Manga books, you will find Japanese honorifics left intact in the translations. For those not familiar with how the Japanese use honorifics, and, more important, how they differ from American honorifics, we present this brief overview.

Politeness has always been a critical facet of Japanese culture. Ever since the feudal era, when Japan was a highly stratified society, use of honorifics--which can be defined as polite speech that indicates relationship or status--has played an essential role in the Japanese language. When addressing someone in Japanese, an honorific usually takes the form of a suffix attached to one's name (e.g., "Asuna-san"), as a title at the end of one's name, or in place of the name itself (e.g., "Negi-sensei" or simply "Sensei!").

Honorifics can be expressions of respect or endearment. In the context of manga and anime, honorifics give insight into the nature of the relationship between characters. Many translations into English leave out these important honorifics, and therefore distort the feel of the original Japanese. Because Japanese honorifics contain nuances that English honorifics lack, it is our policy at Del Rey not to translate them. Here, instead, is a guide to some of the honorifics you may encounter in Del Rey Manga.

**-san:** This is the most common honorific and is equivalent to Mr., Miss, Ms., Mrs., etc. It is the all purpose honorific and can be used in any situation where politeness is required.

**-sama:** This is one level higher than -san. It is used to confer great respect.

**-dono:** This comes from the word tono, which means lord. It is an even higher level than -sama and confers utmost respect.

**-kun:** This suffix is used at the end of boys' names.

# About the Author

George Asakura made her debut as manga-ka (manga creator) with *Punky Cake Junkie*, which was published in the magazine *Bessatsu Friend DX Juliet* in 1995. She gained prominence with the serialization of *A Perfect Day for Love Letters* in 1998, which has now been released as a live-action omnibus movie in Japan.

Known for her unique, edgy style and storytelling, George Asakura crosses over between the everyday and the fantastic, the hilarious and the bittersweet. Her past works include *Shonen Shojo Romance, Bara Ga Sasta, Suimitsuto No Yoru, Happy End* (published by Kodansha), *Heart Wo Uchinomese, A Piece of Cake, Karaoke Baka Ichidai* (published by Shoudensha), and *On Ponch,* (published by Shogokukan). She is currently working on the new series *Ohoreru Knife (The Drowning Knife)*.

# Translation Notes

Japanese is a tricky language for most Westerners, and translation is often more art than science. For your edification and reading pleasure, here are notes on some of the places where we could have gone in a different direction in our translation of the work, or where a Japanese cultural reference is used.

## Sperm-kun, page 6

Emoto is rather rude and is teasing his friend about his haircut. Someone had said he looks like Hiroyuki Ikeuchi, who is a handsome Japanese actor who wears his hair very short. Emoto then chimes in and says he looks more like 'Katsuo,' who is a character in the long running Japanese cartoon show Sazae-san. He then comments that "A sperm-kun couldn't even pierce this head." Ririko overhears this, which is a good example of why she dislikes Emoto so much.

## Kokoro, page 15

The Japanese name of this book, *Kokoro*, literally means 'heart' and can be interpreted as "the heart of things" or "feeling." The book deals with a man's feelings.

# Honorifics Explained

*continued*

**-chan:** This is used to express endearment, mostly toward girls. It is also used for little boys, pets, and between lovers. It gives a sense of childish cuteness.

**Bozu:** This is an informal way to refer to a boy, similar to the English terms 'kid" or 'squirt."

**Sempai:** This title suggests that the addressee is one's senior in a group or organization. It is most often used in a school setting, where underclassmen refer to their upperclassmen as sempai. It can also be used in the workplace, such as when a newer employee addresses an employee who has seniority in the company.

**Kohai:** This is the opposite of sempai, and is used toward underclassmen in school or newcomers in the workplace. It connotes that the addressee is of a lower station.

**Sensei:** Literally meaning "one who has come before," this title is used for teachers, doctors, or masters of any profession or art.

**-[blank]:** This is usually forgotten on these lists, but it's perhaps the most significant difference between Japanese and English. The lack of honorific means that the speaker has permission to address the person in a very intimate way. Usually, only family, spouses, or very close friends have this kind of license. Known as yobisute, it can be gratifying when someone who has earned the intimacy starts to call one by one's name without an honorific. But when that intimacy hasn't been earned, it can also be insulting.

## *All Night Fuji*, page 95

All Night Fuji was a popular variety show in Japan that aired on Saturday nights. It started at midnight and went all the way through the night. One of the frequent guests was Shoken.

## *Japanese postal service*, page 143

This emblem is the sign the Japanese postal service uses. It will occasionally appear in this story.

## *The GS sound*, page 49

"I was glad to get your reply."
"It's like rooftop too. I go there when I want to be alone and listen to garage punk and GS. (GS is the original Japanese garage punk!)"

"I go there when I want to be alone and listen to garage punk and GS. (GS is the original Japanese garage punk!)" Shortly after The Beatles performed in Tokyo, a new trend started in music. Prior to this, the emphasis was on solo singers, but the new thing was to be in a band, which was referred to as "Group Sound," or GS for short. Japan had many GS bands and one of the biggest was The Tempters featuring Shoken as their vocalist. GS bands emulated the popular English-speaking bands of the day, but not many of them gained notoriety outside of Japan.

## *Shoken*, page 52

"Shoken" got his start as lead vocalist for the group The Tempters back in the 1960s, at only 15 years old. They had a regional hit with "Live For Today," which was also a hit in America by the Grass Roots (Let's Live For Today). He now goes by his real name, Hagiwara Kenichi, and is a star of TV and movies, as well as a movie director.

# Preview of Volume 2

We're pleased to present you a preview from Volume 2.

This volume will be available in English on November 29, 2005, but for now you'll have to make do with Japanese!

## The Mailman's song, page 145

The mailman is singing a Japanese children's song (Hold my hand up, over the sun—) in which you hold your hand over your eyes to block the bright sunlight. He's singing it while holding the letter up to the sunlight to try and sneak a peek at what's inside.
